

Message from John Mazur, MD

We need a pediatric orthopaedist to join an orthopaedic mission team to Milot, Haiti from July 20 -28, 2012. Milot is a very safe city and many bring their wives and children if they are teenagers. Committed to the team so far are: two PT's from the University of Florida, Gainesville, two adult orthopaedic surgeons (one who is the chief medical officer of his clinic in Boston and one from Sarasota, Florida) and one OR nurse. Dr. John Mazur is organizing this trip and if interested, contact him by email: jmazur@nemours.org.
