Dear POSNA Corporate Partners,

The Pediatric Orthopaedic Society of North America (POSNA) understands the importance of the relationship with its Corporate Partners and how fundamental it is in the ability to achieve the POSNA mission of advancing pediatric orthopaedics by promoting education, research, and quality care. This tripartite mission is accomplished through innovative, high-quality educational programs, collaborative research, and advocacy, which allows for transformational advances in musculoskeletal care. Corporate Partners are vital in the continued growth of POSNA and its recognition as the world's premier medical society for pediatric musculoskeletal care, from spine pathology to limb deformity, trauma, and more. POSNA and its Corporate Partners are allies in the advancement of patient care and this collaboration, through the exchange of ideas and knowledge improves and nurtures both groups' abilities to enable optimal musculoskeletal care for our patients. Industry provides the fuel/support which enables POSNA to continue to make significant strides in education, clinical care, and research, all for our patients' benefit.

Education is truly at the center of every POSNA activity. At the center of the educational program are two internationally recognized programs: the POSNA Annual Meeting and the International Pediatric Orthopaedic Symposium (IPOS®). Both of these meetings draw orthopaedic surgeons, non-operative providers, advanced practice providers, and trainees from around the world.

The 2023 POSNA Annual Meeting, April 26-28, is a dynamic event focusing on cutting-edge, evidence-based research covering the entire spectrum of pediatric orthopaedics and musculoskeletal medicine. This year, the meeting starts with Subspecialty Day, followed by 3 days of plenary sessions, panel discussions, and breakout activities. After 2 years of COVID-impacted meetings (2020 – virtual; 2021 – hybrid), last year's in-person meeting in Vancouver was a resounding success. The energy at the meeting was phenomenal as was the program, which demonstrated the society did not miss a beat in its efforts to continue its mission in research and advocacy, and demonstrated the upward trajectory for POSNA.

IPOS® is a showcase for innovative techniques and the latest technologies with an emphasis on education/teaching. Its format provides a unique, attendee-centric experience, which covers every aspect of pediatric orthopaedic care. In addition to the customary lecture format, the meeting is packed with case discussions, panel debates, breakout sessions, hands-on technical workshops, and the industry-centered Spotlight Sessions. The Top Gun Surgical Simulation Competition, for residents and fellows, is an innovative educational experience which is in high demand every year.

POSNA continues to expand its global educational mission by collaborating with alliance societies. Initiatives with the European, Asia-Pacific, and South American pediatric orthopaedic societies have extended the impact of POSNA, and corporate support has been integral in their success and growth.

We look forward to continued close collaboration with our Corporate Partners. We urge you to reflect on the reasons why you have chosen to join us in the past and we ask you to consider elevating your level of support this year. Your input on our collaboration has been important and has guided our vision for our combined futures. With integrated support for the POSNA Annual Meeting and IPOS® in the same year, you can allocate your support among the multiple options offered to best align with your goals. We look forward to 2023 and our collaboration with our Corporate Partners.

Six sessions are offered during Top Gun. Acknowledgment will be posted on a sign outside the session room. The six sessions available for sponsorship are: Distal Radius, Ponseti, Spine, Sports, SCFE, and Team Challenge. These six sessions will be conducted by the sponsor.

Top Gun Selection

One session will be offered to each company at a sponsor cost of \$7,000, not including skill session-equipment, personnel, etc. Corporate partners will need to provide the required staff and supplies required for the station under the direction of the Top Gun Chair and Station Captain.

Double Diamond (DD) sponsors will receive first option.

In the event that more than one DD sponsor requests to sponsor a session within the same specialty, the previous participant in that specialty will receive first consideration. Second tier of preference will be given to those companies who were able to successfully participate the previous year. A sponsor of one station can sponsor a second station provided no other sponsor wants to participate within the scope of the overall Top Gun educational program. The second station will require an additional \$7,000.

The Top Gun Chair will have final choice in which sponsor to select in the case of multiple sponsors wanting to participate in the same station or content area based upon above considerations.
